II. LITERATURE REVIEW

There are many types of online homemade chocolate shops in India. But For the first time, in nashik that we are delivering online Homemade chocolate ,Cakes and Cupcakes And the cost of this homemade chocolate, cakes and Cupcakes is also less than other store. Most types of chocolate at low prices and very good quality. Good chocolate in India is very expensive because some people do not buy chocolate but due to this chocolate website all people can buy chocolate in their taste and at very low cost .online homemade chocolate indicates to by product and service directly from the seller through the internet.

In our literature survey the creation of the first modern chocolate bar is credited to Joseph Fry, who in 1847 discovered that he could make a moldable chocolate paste by adding melted cacao butter back into Dutch cocoa. By 1868, a little company called Cadbury was marketing boxes of chocolate candies in England. Chocolate may be the “food of the gods,” but for most of its 4,000-year history, it was actually consumed as a bitter beverage rather than as a sweet edible treat.

- 1) Cadbury - In 1824, John Cadbury, a Quaker, began selling tea, coffee and drinking chocolate in Bull Street in Birmingham, England
- 2) KitKat- Use of the name Kit Kat or Kit Cat for a type of food goes back to the 18th century, when mutton pies known as a Kit-Kat were served at meetings of the political Kit-Cat Club in London owned by pastry chef Christopher Catling. The origins of what is now known as the Kit Kat brand go back to 1911, when Rowntree's, a confectionery company website based in York in the

United Kingdom, trademarked the terms Kit Cat and Kit Kat.

- 3) Hershey- After an apprenticeship to a confectioner in 1873, Milton S. Hershey founded a candy shop in Philadelphia. This candy shop was only open for six years, after which Hershey apprenticed with another confectioner in Denver, where he learned to make caramel. After another failed business attempt in New York, Hershey returned to Pennsylvania, where in 1886 he founded the Lancaster Caramel Company.

III. SYSTEM ARCHITECTURE

A. Admin:

Admin add the new item to add item and add item and admin update to update item and admin delete the item from delete item admin is all data store in the Tab_1 item.

B. Client:

Client login the website and manage the product then the In search product client can add the cart then the it also make the cancel the order, make the payment & conform the order.

C. Search:

We can search different chocolate cake, cookies website online and search different chocolate cakes, then we can see the details of that product and search the Red velvet cake, white forest cakes.

D. Payment:

We can also make online payment or online net banking on this chocolate café website. Supposed if you want to order a product we can pay online by entering username and password or we can also make credit card and debit card.

E. Feedback:

Give us feedback on how you liked this web. And you can do shopping at home and then make online payments but this chocolate cake website is really cool and you can definitely buy a product on this website.

F. Registration:

We can register ourselves at this chocolate cake website only to register username and password after that you will have your own registration

IV. PROPOSED METHODOLOGY

Online chocolate cafe is a web based application. The main of this project is to provide.

Better experience in the area of chocolate, cakes and Cupcakes shopping scenario.

A. Existing system:

In current scenario, if we want to buy chocolate then we need to go shopping mall or store and search for product. Ask to others to know the details about the Chocolate, Cakes and Cupcakes which we want to buy. Need to wait in a queue.

B. Proposed system:

By using of this application is user can search their favorite Chocolate, Cakes and Cupcakes according to their requirement. They can know brief information about the Chocolate, Cakes and Cupcakes. They can buy in online using online payment. They can take a snapshot of the Chocolate, Cakes and Cupcakes while trial.

V. CONCLUSION & FUTURE SCOPE

In the study, now people have many and multiple option to choose their chocolate, cakes and cupcakes while they are shopping through and online platform day-by-day taste, choice and preference are varying regarding different factors such as the internet emergence .however this website development needs some more understanding related to customers behaviour online homemade chocolate shopping is very easy solution for busy life into days world for festivals and moments of joy. User no need to go physical shops with this you will have more time to spend with your family. It Just need a computer and a payment making options like net banking, credit card debit card or cash on delivery. Online homemade chocolate Shopping is made easier and convenient for the customer through internet. It is also easy to cancel the transactions.
